

## Lilly Cleveland

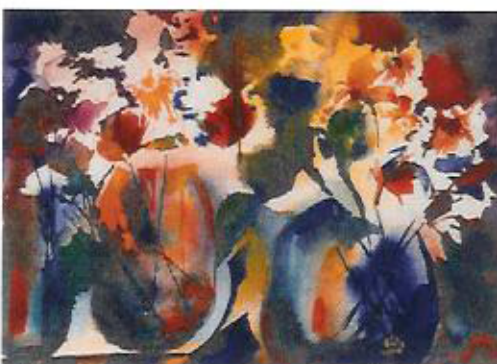

---

My focus and knowledge have been influenced and directed by all my teachers through the years. I strive to capture the essence of an object or scene and do something different with the final painting, making it unique.

Enjoyment of the artistic process has been most important to me.

My work has been well received in the commercial world as greeting cards. Also, my semi abstract and impressionistic work has won numerous awards. Through it all, I try to maintain a simple and joyful approach to art. I come to it because I enjoy it.

Education: B.A., Boston University
